SPECIAL NOTE: New Jersey provides up to six weeks of family leave insurance benefits for eligible employees who take time off from work to care for a newborn child, a child placed for adoption or a family member with a serious health condition. The weekly benefit rate is calculated at two-thirds of the employee's weekly salary during the leave period, up to the maximum amount payable. Benefits are funded through employee payroll taxes. Please note that the information in the above chart focuses on statewide laws. Employers must be aware that numerous cities across the country have enacted local ordinances that mandate employers to provide paid sick leave to employees. An employer located in a city with a local paid sick leave law must generally comply with the local ordinance and statewide law, if applicable.
